### **DETAILED ACTION**

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1, 2, 8, 10, 14, 15 and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Kriesels et al., U.S. 7,104,344.

Kriesels et al. discloses rotated shear cutters (4) having flat impact surfaces, hydraulically driven domed axial impact cutters (7) arranged to impact the formation before the shear cutters.

### ***Allowable Subject Matter***

Claims 3-7, 9, 11-13, 16-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
